

Half Term Curriculum Overview

Year 3 - Spring 2 Predators - 2022

English

This term, our narrative unit is based upon the text '*Fly Eagle Fly*'. Children will have opportunities to develop and apply a richer vocabulary, focusing specifically on setting and character descriptions. They will explore how to add drama and humour to the plot, culminating in writing their own five-part narrative. Grammar and punctuation will focus on conjunctions to express time and using paragraphs in writing. Children will also create posters and focus on explanation texts and persuasive writing by exploring the book '*Can We Save the Tiger?*' Children will also have an opportunity to analyse and write poems based on the same theme. We look forward to celebrating World Book Day with lots of fun and engaging tasks.

Computing

In this unit, children will become develop their skills with branching database linked to our topic on Predators and they will create their own branching database for herbivores, carnivores and omnivores. Children will continue to learn about online safety.

Spanish

- In Spanish this half-term, pupils will be reviewing colours and numbers as well as learning the Spanish names for shapes.

Topic

Our PSHE unit is 'Life in the Wider World'. Children will explore how to stay safe in different environments as well as considering what responsibility they can take for looking after their local environment. In studying real-life examples, children will learn about the different organisations that support their local community and how the media can also help.

In Science, children will find out what the terms 'producer', 'consumer' (primary, secondary and tertiary), 'apex predator' and 'decomposer' mean. They will also identify the right types and amount of nutrition that animals, including humans, need. As a part of science, we will explore how the skeleton and muscles work together to support, protect and assist movement.

Children will be describing the functions of different parts of flowering plants: roots, stem/trunk, leaves and flowers. To extend their knowledge further, they will investigate the way in which water is transported within plants.

D & T: Children will link what is to be learned in science lessons to make a moving human skeleton with joints.

Art: Children will be exploring Henri Matisse to create collages of predators, linked to their science.

The RE focus this term is 'Lent' in Christianity. Children will explore and describe a range of beliefs, symbols and actions during Lent.

Music

Children will be learning to play a simple song using untuned instruments and tuned Ukulele instruments. They will also learn about improvisation and the Jazz musicians Ella Fitzgerald and Dizzy Gillespie.

Mathematics

In Maths, the children will learn written methods for multiplication and division involving a 2digit number with a single digit number.

The children will be learning about the concept of money and how to add and subtract amounts of money to give change, using both pounds and pence in practical contexts. Children will begin the fractions unit, consolidating their understanding of how many parts make a whole. They will then focus on finding unit and non-unit fractions of sets of objects and amounts. They will have experience of using a range of methods including manipulatives, diagrams and knowledge of multiplication facts.

P.E.

In gymnastics, children will explore how to travel along the ground in a symmetrical shape: sliding, bouncing on two feet, jumping from two feet, etc.

In games, children will focus on net and wall games.

Homework

- **Project:** As described in the Topic homework letter.
- **Spellings:** Children should be practising their spelling regularly. Spelling test on Fridays.
- **Reading:** To be practised regularly, 10 minutes every day. Books are changed weekly
- **Mathematics:** Practise times tables and division facts as in Maths passports.
