Today we learned about CYBERBULLYING we learned to:

Speak out and get help:

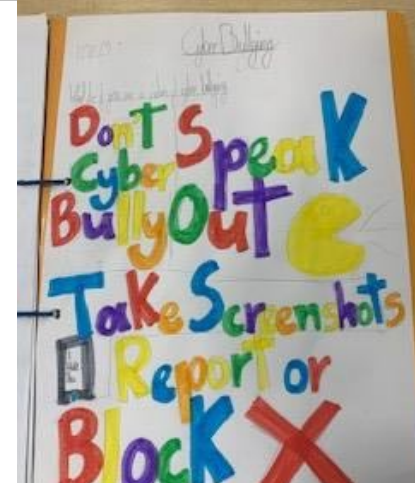

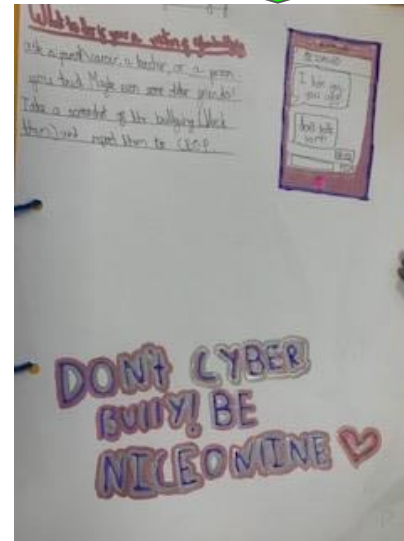

- To a parent/carer
- To a teacher
- To a person you trust

It's also important to be proactive yourself:

- take screenshots of the bullying that has occurred as evidence
- Report the abuse to the social media network
- Block the person sending the offensive or upsetting comments

There are several roles in bullying behaviours. There is the target and the ring leader but also people can be reinforcers. Defenders are people who help others and call out bullies. Ryan

Bullying is a repetitive action which can be physical, verbal or psychological and this is an action that none of us should be ever using. Myla

When people are being mean we should try to act report to defend them. Nawal
