

JUST ONE Tree Day

<https://www.justonetree.life/>

Friday 18th October 2024

"We have to look after the trees and grow more trees".

Ladybirds

"The animals live in trees. It's their home. We have to look after their home".

"The animals eat the trees, like grasshoppers."

"I like eating the fruit"

"Food grows on trees ... apple, oranges, tomatoes. We can grow more bananas"

"I love climbing trees"

"The trees make our planet cool and we can breathe air"

Dragonflies

**“The trees
make oxygen,
we need to
protect them”**

**“The animals
live on the
trees, birds
and squirrels”**

**“The roots of
the trees
suck the
water when
it's raining.**

**“We need the
trees to make
paper to write
things on it”**

"We give £1 to plant the trees" *Joshua*

1F

"Trees give us apples" *Mia*

"We use trees to breathe air" *Hayat*

"They give us oxygen" *Aurora*

"We use trees so the animals can have shade" *Robyn*

"We use trees to make medicine" *Nylah*

"Trees give us air" *Defne*

Trees give you oxygen to breathe.

Tristan

Animals live in trees.

Finlay

Paper is made from trees.

Stanley

1S

It's One Tree Day!

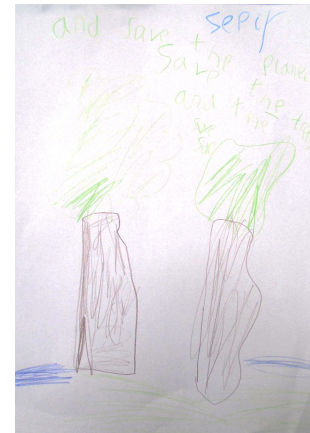

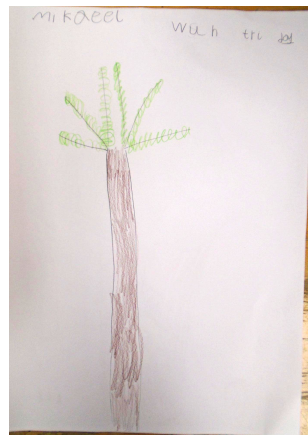

Mikaeel

Trees can be shade when it's hot and sunny.

Hannah

Without trees we can't breathe.

Danila

'We are trying to raise money to plant more trees' **Isabelle**

'People cut down the trees... it is bad and animals get sad' **Eli**

2B

'Trees give us oxygen to breath'
Laila

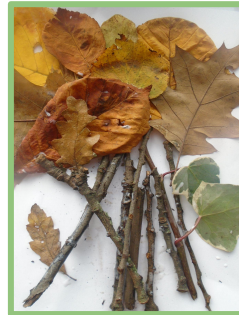

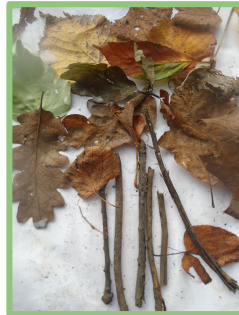

'People cut the trees down for resources like paper but we shouldn't waste it so we won't have to cut down as many trees' **Aren**

'Animals habitats are being destroyed by people are cutting down trees' **Bella**

'You can get a sapling from a tree and plant more trees instead of cutting one down'
Lucas

'We are raising money to plant more trees'
Diren

'We collected leaves and sticks to make a tree' **Maryam**

"You find mangrove trees by the coast and the long roots protect the land from flooding. The leaves protect the coastline from storms." Charlie

"Trees breathe out oxygen and in carbon dioxide and we do the opposite." Mila

"We can't live without trees." Eliza

2L

"If we don't have trees we wouldn't be able to breathe. Animals need trees too." Aiden

"If people cut down trees they won't give us oxygen and the animals won't have anywhere to live." Orik

"Forests cool our earth down and without trees the earth would be hot for the animals that live on ice." Georgie

"Animals live in trees and they give us oxygen so it is bad to cut them down." Zuhaib

3B

They give food to
animals.
Nana

Trees give us
oxygen.
John

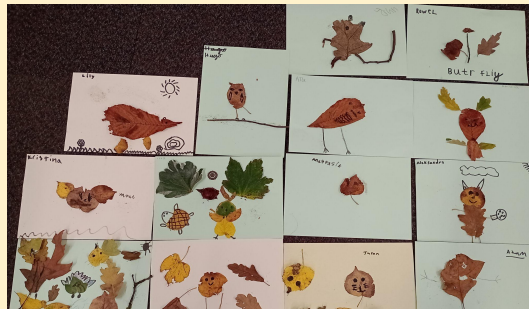

Tons of animals
live in trees.
Hussain

Humans wouldn't
survive without
trees.
Lilly

Trees are important
because they give
homes and food to
animals.
Mehmet

Trees give us
paper.
Fox

3R

In Year 3 we created our very own animals out of leaves! - Aseel

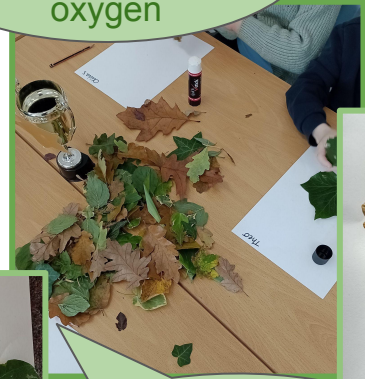

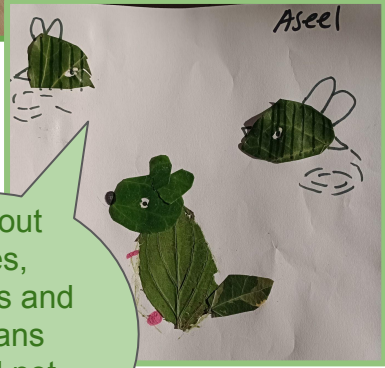

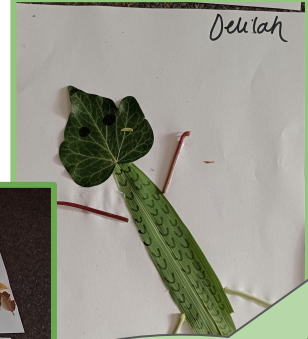

Trees give us oxygen - Delilah

Animals take in carbon dioxide and release oxygen

Without trees, animals and humans would not survive! - Terry

Trees are homes for lots of animals - Esma

We need trees to survive and they help the earth stay cool

4T

We discussed the multiple benefits of trees and their importance to the environment.

Trees absorb pollution so we can breathe fresh air.
Amber

Being near trees calms the heart.
Vinessa

One oak tree supports 500 species of birds and insects.
Kelsey

Paper is made from trees.
Mustafa

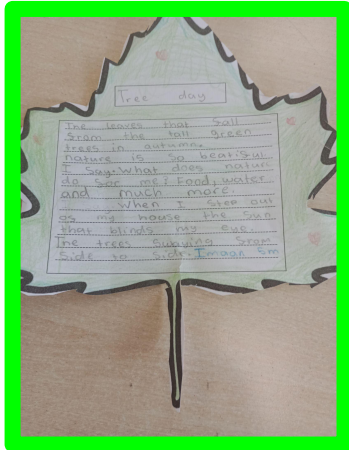

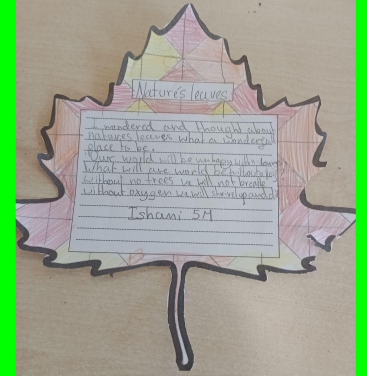

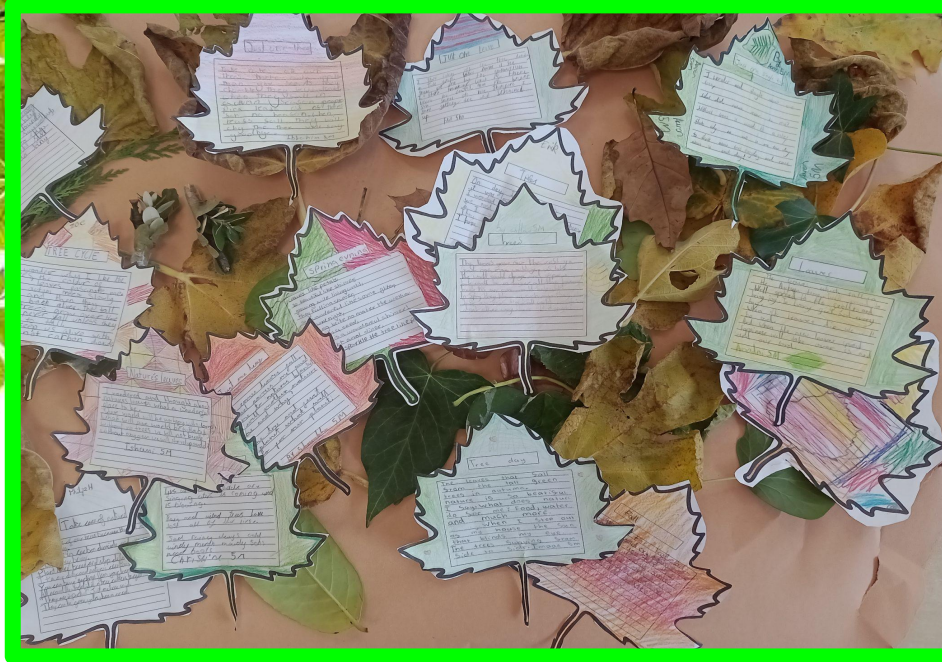

Without trees we wouldn't be alive.
Ali A

Bark of a tree is used to make medicine.
Athena

Humans destroy trees to make cities and town.
Tree produce oxygen.
Ozan K

5M Just One Tree

Today we learned about the life cycle of a leaf and how leaves decompose because they are biodegradable.

We wrote poems to celebrate nature and to ask others to care for our planet.

We consider the importance of trees to the quality of the air we breathe and unique relationship between oxygen and carbon dioxide (CO₂).

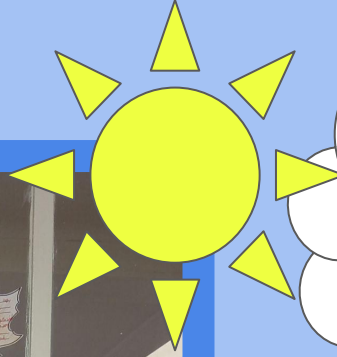

5J

In 5J, we created our very own poems all about Autumn leaves!

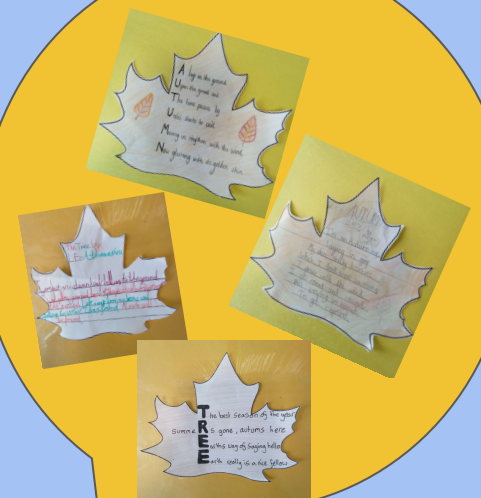

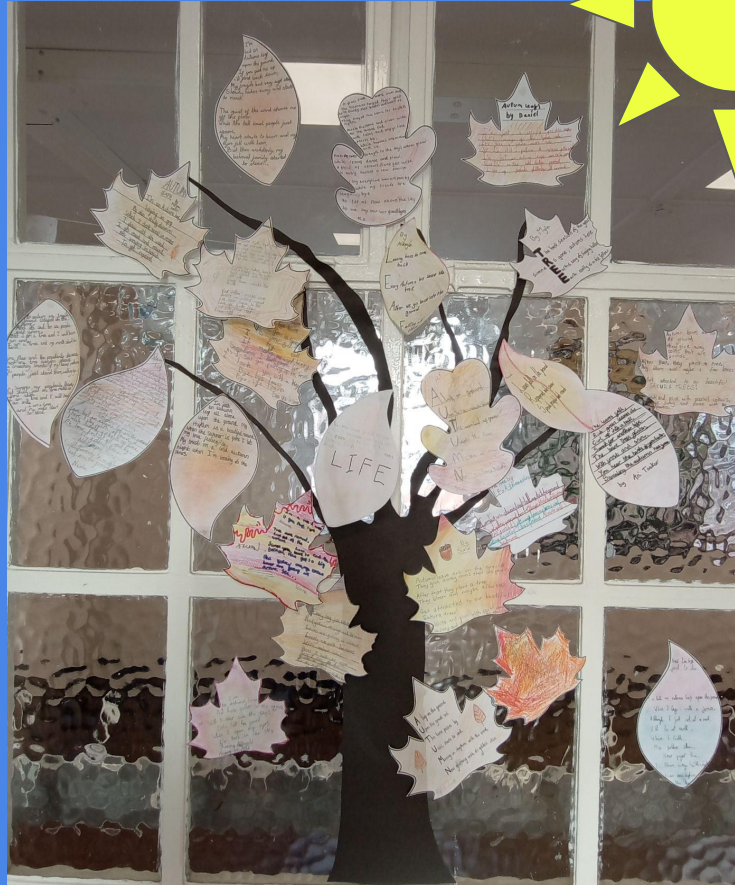

We discussed how important trees are to our natural environment and the air we breathe. We also spoke about the lifecycle of leaves and how they decompose once fallen.

6B

In Year 6,
We have
created
poems about
Autumn
leaves

We have spoken
about the lifecycle
of a leaf and how
fallen leaves
decompose and
support new life.

**T
R
E**
The best seasons of the year
Summer is gone, autumn is here
As the leaves are falling
The earth calls us in his sleep
