

London Climate Action Week 2025

W/C Monday 23rd June 2025

GREENPEACE

"We get good electricity from the wind, sun and water"

Ladybirds

"It's like saving the world, don't waste water and food and recycle"

"Don't keep the water running when you don't need it"

"I turn my bedroom light off when I'm finished"

"You need to put the rubbish to the recycling bin"

"The airplanes and the cars they make the air dirty"

"When you use too much electricity you get power cut and the electricity runs out"

"When you walk and use your scooter you protect the planet"

"Recycling means to use something again to make something new"

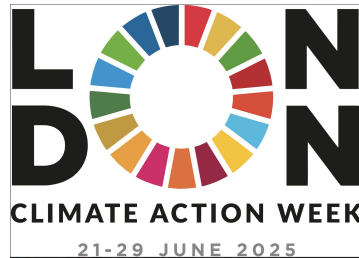

"When we recycle we put the rubbish in the bins, but different ones, because some of them are metal and some of them are plastic"

"Recycle can turn the rubbish into new stuff. I made a jetpack with bottles"

"We shouldn't put rubbish in the ocean"

Dragonflies

"We cannot waste our food, we need to eat it all"

"We need the trees they make oxygen. Don't cut the trees"

"I turn my ipad off when I am finished"

"If you have all the lights on, the tv and the computer you don't protect the planet"

"If you walk to school or take the bike it's better"

1F

"A pledge is a special promise we made them to save the earth...I pledge to respect the animals"

Joseph

"I pledge to keep the plastic bags from the supermarket...it will save the earth!"

Alice

"I pledge to turn off the tap when I am not using it!"

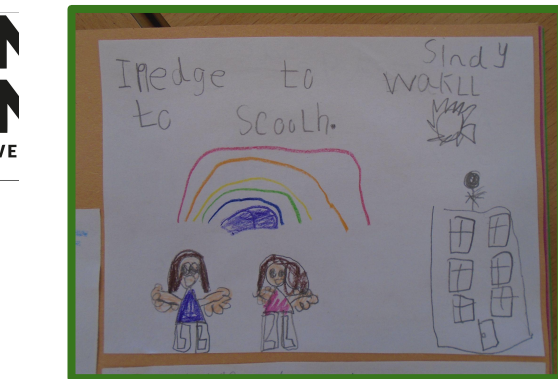

Nylah

"Climate change means the earth is getting very hot! It is a problem!"

Zara

Captain Care

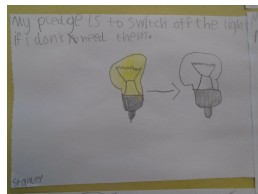

1S

"Me and my mummy sewed the pink pieces on the dress all night!"
Loyal

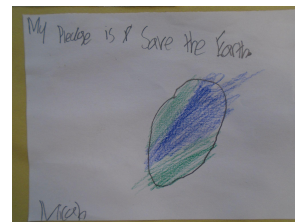

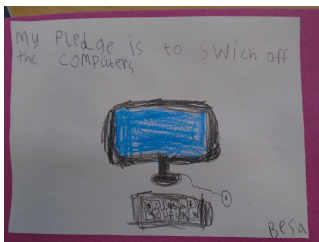

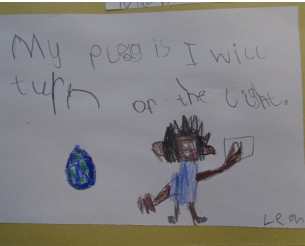

1S pledges to...

"I put colourful foam balls on my bag. I can use it everyday!"
Besa

Sustainable Fashion Show
2025

"This is for my fashion show. I used old socks to make gloves. I coloured it."
Mikaeel

"I cut the socks and made gloves."
Enrik

"I used green reusable Asda bags for my fashion show!"
Finlay

"I used a bin bag and added colourful paper. I made a crown too."
Danila

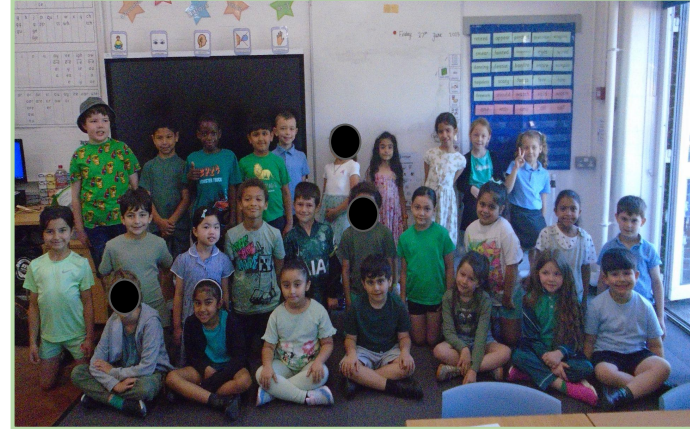

2B

'We learnt sustainability which means caring for our earth' **Alya**

'We designed our own island which included lots of ways to make sustainable energy like solar panels' **Caspar**

'On my island I included a wind turbine which spins around to create energy' **Arena**

'You can recycle too so it gets made into something new' **Rufaida**

FASHION SHOW

2L

"On my island the sun beamed onto the solar panels to give natural power." **Enny**

"On my island there was a sign for no litter." **Lidia**

"On my island I had lots of recycling bins and reused clothes." **Asena**

"Renewable resources can be made again and are better for the environment." **Joshua**

"My island had electric cars and solar panels." **Penelope**

"Sustainable means we don't use harmful gases and use natural resources instead so that we can look after the Earth." **Charlie**

3R

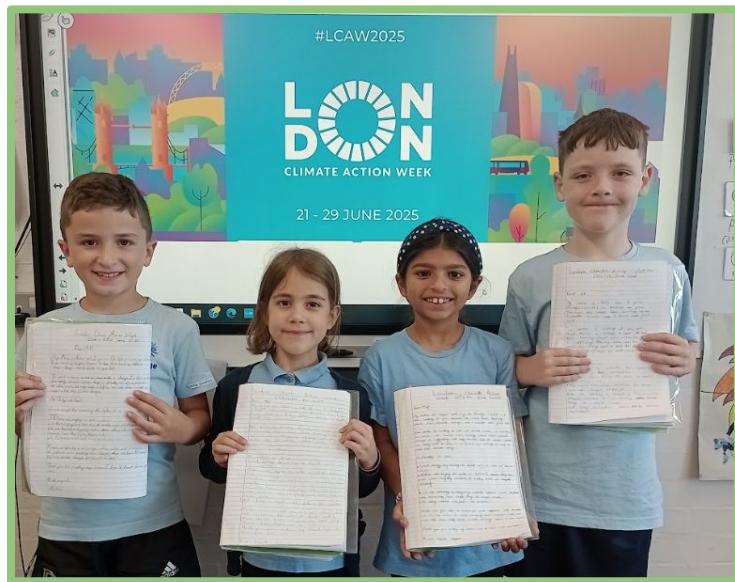

We learnt how electric cars are better for the environment - **Emmanuel**

We have recycling monitors in the class to make sure we recycle properly - **Musawer**

We turned off the computer and interactive whiteboard to save energy! - **Chizi**

We use reusable water bottles instead of plastic ones as its better for the environment - **Amelie**

In 3R we wrote letters to the MP on all the fantastic ways Osidge School is helping to combat Climate change!

Osidge school hosted an upcycling Fashion show - **Esma**

We turned our lights off to save energy - **Atlas**

We encouraged children and teachers to walk rather than drive as this causes pollution and makes the earth heat up! - **Terry**

London Climate Action Week
23rd - 27th June 2025

Dear M.P.

My Name is Andrei and I go to Osidge primary school. I am writing to you because we have been learning about climate change and I would like your help!

The earth is heating up and we must make a change. I have been learning about how climate change is affecting not only London but the whole world. We really want to help so we have been thinking of ways to help stop climate change.

At Osidge we have:

- Saved energy by turning the lights off as well as using energy.
- Children are trying to walk to school.
- We have recycling monitors to make sure we recycle properly.
- We are having a recycling fashion show where children are reusing items that they no longer need.
- Not being wasteful with food in the canteen.

Please can you help us encourage other schools and members of the public to start making these changes that we have. We need help stop climate change before it's too late!

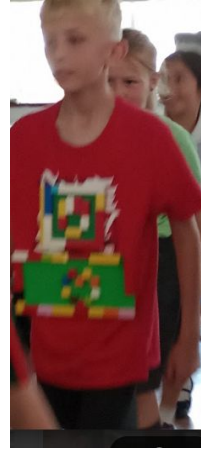

Thank you for reading my letter. I hope to hear from you soon.

Kind regards
Andrei

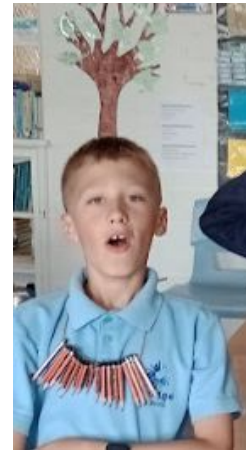

We discussed sustainability and how we can reduce our carbon footprints - these are our pledges!

4S

Our fashion show - we found so many things we could recycle! From plastic bags to pencils to bubble wrap. On Friday we were green to show our commitment to recycling and reducing waste !

On Friday, we all wore green. Some of us shared their great upcycled creation at the Osidge sustainability fashion show!

Sustainability fashion show

4T

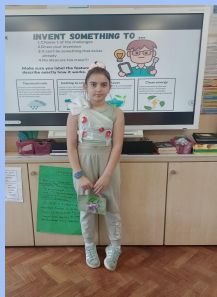

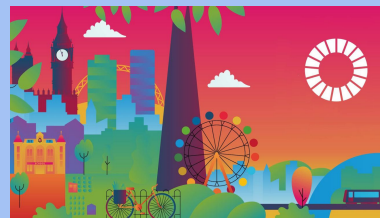

This is our 4T carbon footprint goal!

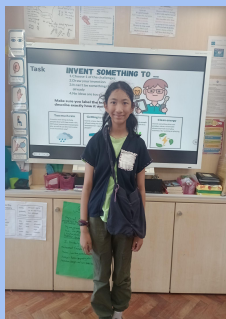

5M

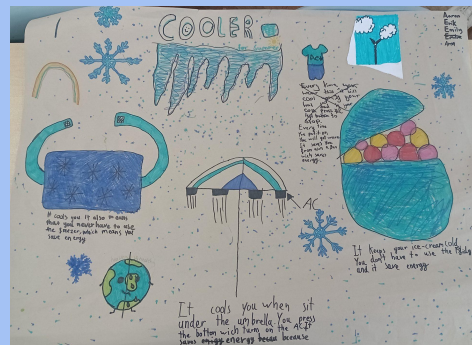

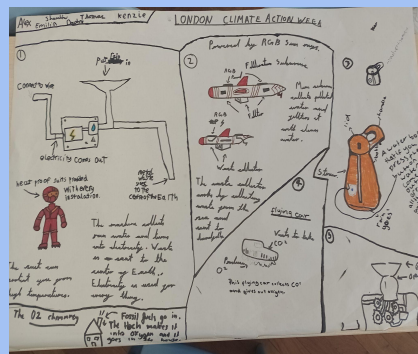

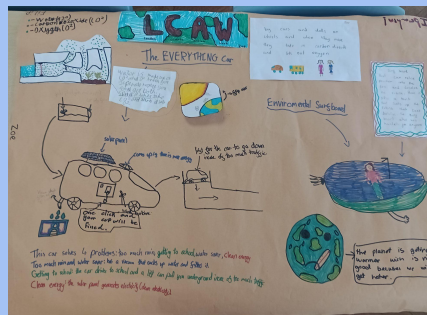

Sustainability Invention posters

Greenpeace Assembly

We designed items to help us protect the planet. We labelled our designs and explained how they would work.

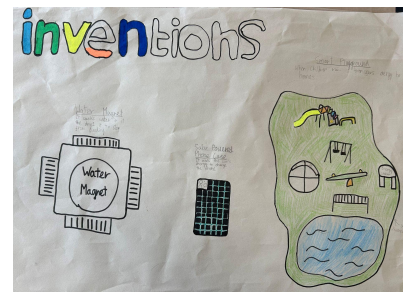

Sustainability Fashion show

Greenpeace Assembly

We learned about the importance of protecting the planet and what we can do as individuals to make sure climate change is being managed.

Sustainability Fashion Show

On Friday, we all wore green. Some of us entered the Osidge fashion show, where we shared our upcycled creations.

Sustainability Inventions

We worked in groups to design our own creations that would help to protect the planet.

As a class, we researched the damaging effects of climate change and global warming.

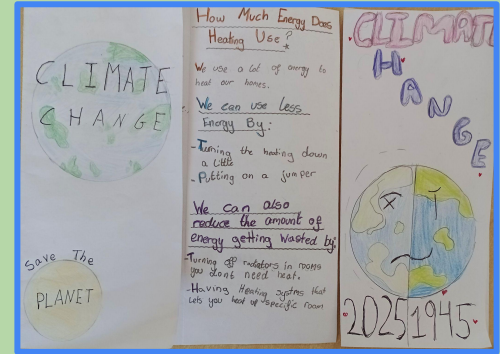

As a result, we have produced leaflets to inform people about the risks of climate change and provided information on how to keep our energy usage low to save our planet.

6B

A polar bear on a melting glacier is a powerful symbol of climate change's impact on the Arctic. As sea ice melts due to rising global temperatures, polar bears, which rely on this ice for hunting seals, face increasing challenges to their survival. They are forced to spend more time on land, often struggling to find food and relying on reducing fat reserves.

Since the Industrial Revolution in the 1700s people have been burning fossil fuels such as coal, oil and natural gases. This has contributed to global warming.

We have also upcycled materials to make clothes for a fashion show

As a class, we researched the damaging effects of climate change and global warming. As a result, we have produced leaflets to inform people about the risks of climate change and provided information on how to keep our energy usage low to save our planet.
